

KOSTE

Kose è stata creata per riscoprire il fascino delle antiche manualità nel Terzo Millennio, fortemente caratterizzato dalla Tecnologia e dall'Omologazione. I materiali impiegati sono naturali : argilla, legno, garza. Le linee sono pure ed essenziali. Questo rende i nostri oggetti unici perché fatti completamente a mano secondo antiche tecniche artigianali; unici perché pensati per coloro che acquistano seguendo precise e personali emozioni dello spirito, ignorando qualsiasi regola imposta dal mercato.

Kose has been created to rediscover the appeal of ancient handcraft objects in the Third Millennium, so strongly pervaded by Technology and Standardization. The materials employed are natural : clay, wood, gauze. Shapes are pure and essential. These choices make our objects unique : they are entirely hand-made according to ancient handcraft techniques, and they have been conceived for people who buy objects following particular and individual spiritual emotions, ignoring all market rules.

KOSE

KOSE

Rosaria Rattin abbandona la Facoltà di Architettura e le costrizioni del disegno matematico per studiare moda a Parigi, della quale si occupa sin d'allora. Dopo diversi anni di esperienza collaborando con le maggiori aziende del settore, crea "Kose" che ha la sua stessa personale filosofia, eterea e naturalista.

Tuttora divisa tra moda ed interior design, trae da entrambe le esperienze e l'ispirazione per la sua continua evoluzione stilistica e il suo concetto di eleganza.

Rosaria Rattin leaves the School of Architecture and rationalistic design constraints to study fashion in Paris. Since that moment she has been dedicating herself to it. After several years of experience with some of the main fashion companies, she starts designing "Kose" that follows her naturalistic and ethereal philosophy.

Nowadays she still works for fashion and interior design getting from both the experiences, inspiration for her continuously increasing stylistic evolution and for her concept of elegance.
