

VG LIGHTING

L'esperienza estetica, evoluta e rinnovata negli anni dai designers **VG**, racconta di un mondo fatto di armonie e contrasti, di ombra che brama la luce. È l'uomo alla ricerca di un eterno dualismo, in un viaggio oltre l'immaginario, dove mente e cuore si ascoltano reciprocamente. La sezione **LIGHTING** nasce proprio da queste sfarzose suggestioni di luce, creazioni d'avanguardia per reinterpretare il buio in modo nuovo e originale. Una parabola rappresentativa dove l'uomo, senza il suo opposto, si perde nel mistero dell'oscurità.

Design experience, evolved and reinterpreted over the years by the **VG** Designers, expresses a world built on harmony and contrasts, dark to light. Eternal dualism in an experience that goes beyond the imagination and where the mind and body become a whole. **LIGHTING** has been developed from these magnificent plays on light, contemporary and exclusive creations reinterpreting the dark with a new and original theme. A tale where man, without his opposite, is engulfed and lost in a mysterious darkness.
